INTRODUCTION

The USC Upstate College of Education, Human Performance, and Health (CoEHPH) Field Experiences Handbook includes policies and procedures underlying and governing all field experiences, including Student Teaching, related to the Education Professional Program of the University of South Carolina Upstate (USC Upstate). In addition, this handbook serves as a reference for university and public- school personnel as well as Teacher Candidates (TC) involved in field experiences. This handbook requires frequent revision, as the nature of field experiences is modified in response to the ideas and concerns of those engaged in the process. It is the responsibility of the Director of Field Experiences to review this handbook on a bi-annual basis and to make appropriate revisions.

Selection of Public Schools

An effort is made by the CoEHPH to arrange field experiences in partner public schools where USC Upstate TCs can benefit from teaching experiences and where public-school faculty and administrators work cooperatively with university faculty and TCs. All public schools used for field experiences must be accredited by AdvanED. The partner districts and schools represent different types of diversity of students. A Memorandum of Understanding between USC Upstate and partner school districts outlines the experiences and qualifications/roles and responsibilities of the school, the Cooperating Teacher (CT), and the University Supervisor (US).

Personnel Involved in Field Experiences

To clarify terminology used in the chapter, note the following definitions:

- Administrative Assistant for the Department of Education The designated staff
 member at USC Upstate who is responsible for handling documents for field
 experiences and monitoring clearance.
- Cooperating Administrator (CA) One who functions as an administrator in a school
 district and assumes the responsibility for coordinating the presence of teacher
 candidates in that particular school district.
- Cooperating Teacher (CT) One who teaches in a public school and undertakes the

additional responsibility of supervising teacher candidates during a semester.

- Director of Field Experiences The designated faculty member at USC Upstate who
 oversees field placements and serves as a primary liaison between the University and
 public school district partners.
- Dean of the CoEHPH The individual responsible for recommending to the South Carolina State Department of Education (SCDE) those individuals who have successfully completed the teacher education program at USC Upstate.
- Field Experience Instructor Faculty member, also referred to as the University Supervisor for field experiences, responsible for observing the TC and ensuring the completion of the required hours prior to Student Teaching. The Field Experience Instructor is responsible for facilitating a Field Experience course, for evaluating the Teacher Candidate's Self-Evaluation and Reflection of Teaching (SERT), formal lesson observations, and the Dispositions Evaluation, which is a key assessment.
- LiveText Coordinator The designated faculty member who sets up evaluations in LiveText and answers any questions related to LiveText.
- Seminar (Pull Back) Instructor The individual responsible for evaluating the TC's Self Evaluation and Reflection of Teaching (SERT) and the Teacher Work Sample (TWS), which is a key assessment, during Student Teaching.
- Teacher Candidate (TC) A university student currently enrolled in the teacher education preparation program, including those participating in a Field Experience/ Student Teaching.
- University Supervisor (US) A member (including faculty/adjunct and affiliate positions) from USC Upstate who serves as a liaison between the University and public school and is responsible for supervising a teacher candidate and communicating/collaborating with the cooperating teacher during Student Teaching. The University Supervisor is responsible for completing formal lesson observations and an ADEPT SCTS 4.0 Rubric Summative Consensus Evaluation, which is a key assessment, in consensus with the CT.

Qualifications of Cooperating Teachers

Teachers who serve as CTs must:

- Hold a valid continuing professional certificate in their area of supervision.
- Have successfully taught for at least two years at the grade level and/or subject area for which supervision is assigned.

- Have been trained on the ADEPT SCTS 4.0 Rubric, per South Carolina Department of Education requirements.
- Have completed a CoEHPH Orientation for CTs.
- Have been recommended annually, by the school administrator for service as a CT.
- Be willing and able to mentor TCs.

Qualifications of University Supervisors

USC Upstate faculty members and affiliates who serve as USs must:

- Have strong classroom experience within P-12 schools (5 years minimum).
- Be willing to travel to various school assignments.
- Hold a valid driver's license and have a reliable mode of transportation.
- Be available to TCs and the University during the student placement period.
- Possess the ability to use technology in the performance of responsibilities.
- Maintain ADEPT SCTS 4.0 Rubric Certification (if not already, must be certified by the start of the placement).

FIELD EXPERIENCE COURSES

Field experiences are intended to provide USC Upstate teacher candidates with firsthand classroom experiences. These experiences allow TCs to connect theory and practices discussed throughout their teacher preparation coursework. Field experience courses serve as preparation for Student Teaching and the TC's teaching career. Field experience courses include: planning, teaching, assessing, managing the classroom, and professionalism, while utilizing a variety of student groupings. Performance in each field experience course is evaluated by the field experience Instructor/University Supervisor. Note: Field experiences for TCs in Art, Physical Education and Special Education follow a cohort model in which field experiences are embedded in courses. The Instructor/US communicates with the Director of Field Experiences regarding which TCs should be included in placements for each semester.

General Competencies Developed in Field Experience Courses

Field experiences required of USC Upstate TCs are sequential and interdependent with course work. Though specific requirements may vary by course, the following competencies are fostered by field experiences:

The TC will:

• Describe the nature of schools and schooling as determined through observation.

- Describe characteristics of PreK-12 students as determined through observation.
- Participate in diverse settings including those with different socio-economic status, cultural, and linguistic backgrounds.
- Identify the various educational resources available to exceptional students.
- Demonstrate skill at recording and analyzing data gathered through observation and other informal assessment measures.
- Collect and analyze pre/post test data to inform teaching practices.
- Engage in reflective thinking about teaching.
- Plan and implement lessons under the direction of the CT.

Documentation and Evaluation

All field experiences (including courses leading up to Student Teaching, as well as Student Teaching) will be documented, and appropriate evaluation forms will be completed and saved in the TC's LiveText account, which is a private and secure assessment management web application by Watermark. TCs are required by the SCDE to complete a minimum of 100 hours of classroom experience before moving into Student Teaching. In many cases, depending on course requirements, TCs will have more than 100 hours. All TCs are formally observed with documented evaluations based on the SCDE's ADEPT SCTS 4.0 Evaluation of Teaching Effectiveness system. TCs in Field Experience courses are evaluated on the key performance assessment Dispositions Evaluation, which focuses on five dispositions or professional behaviors critical for effective teaching. LiveText questions/issues should be communicated to the LiveText Coordinator.

Conflicts of Interest

TCs may not be placed in any school setting where a family member is employed. Placement with family members who attend the school will be handled at the discretion of the Director of Field Experiences. TCs should report either of these situations to the Director of Field Experiences if they occur so they may be remedied immediately.

In an effort to maintain balance in the CT/ST/US relationship, gift-giving is prohibited during the evaluation period of a TC's placement. Though it is not required or to be expected, there may be instances when a person would like to offer a small parting gift or a gift of thanks at the end of the field experience (once all evaluations have been completed). In such cases, a gift is permissible but not to exceed the value of \$50. If you have questions regarding this policy, contact the Director of Field Experiences for clarification.

STUDENT TEACHING

Student Teaching is a field experience that serves as the capstone learning experience in the teacher education program. TCs are expected to behave in a professional manner at all times throughout the placement period.

The Student Teaching experience is designed to:

- Give the TC, under the guidance of a competent professional, first-hand experience with PreK-12 students.
- Allow the TC to apply theoretical content and professional knowledge acquired during coursework at the University.
- Provide CTs who model and exemplify good pedagogy.
- Allow the TC to practice and develop teaching skills including planning, implementing, and evaluating instruction.

The length of the USC Upstate Student Teaching experience is sixty-five days.

Single Placement

TCs with majors in Art, Early Childhood, Elementary, Middle, and Secondary programs have one placement for the entire semester. They are required to take on a full teaching load, gradually assuming full responsibility for the entire day during the first 3 weeks and gradually releasing full responsibility back to the cooperating teacher during the last 3 weeks of the Student Teaching experience.

Dual Placement

TCs with majors in Physical Education and Special Education programs will have two placements of approximately seven weeks each (typically one in an elementary school and one in a middle or secondary school). Having a dual placement means TCs assume full responsibility for the entire day during the second week of school and gradually release full responsibility during the second to last week of Student Teaching.

All TCs are in a 15-credit hour block that includes 12 credit hours for Student Teaching with an additional 3 credit hour seminar course during Student Teaching. To provide TCs with diverse classroom experiences, TCs are prohibited from Student Teaching in any school where a conflict of interest may exist (see "Conflicts of Interest").

Roles and Responsibilities of Cooperating Administrators

The Cooperating Administrator (CA) is responsible for fulfilling the placement request and assuming applicable responsibilities names in the MOU between USC Upstate and the school district partner. No TC is placed in a school without the CA's consent. In addition, CA's often:

- Introduce TCs to the entire faculty during an appropriate faculty meeting.
- Informally observe a TC for a whole or portion of a lesson.
- Confer with CTs about the progress or any issues with TCs.
- Approve a minimum of 2 observations by the TC in classrooms other than those to which they have been assigned during the last 1-2 weeks of the placement.

Roles and Responsibilities of Cooperating Teachers

Effective CTs provide positive role models for TCs while they encourage TCs to develop an individual style of teaching. Communication with the TC is vital. Guidance and feedback concerning planning, lesson implementation, assessment, and classroom management should be provided to the TC on a daily basis. As skills develop, the TC should assume increasing responsibility for all parts of the instructional process. Specific responsibilities of the CT include:

- Complete the Cooperating Teacher Orientation session provided by the University prior to the beginning of the semester.
- Prepare/introduce students, faculty, and staff in the school for the arrival of the TC.
- Acquaint the TC with the availability and location of student records, instructional materials, and instructional technology.
- Provide the TC with a desk or table for professional use.
- Familiarize the TC with schedules and other routines.
- Guide the TC through the creation of lesson plans, based on content and grade level standards and objectives.

- Assist the TC in the development of a unit plan.
- Provide the TC with opportunities to observe in various classroom settings.
- In collaboration with the TC, prepare a long-range plan for the gradual assumption and release of classroom teaching responsibilities.
- Approve unit plans and daily/weekly lesson plans prepared by the TC.
- Provide regular and continuous feedback to the TC concerning all aspects of the instructional process and specific suggestions concerning management techniques.
- Involve the TC in all responsibilities related to teaching, such as bus duty, lunchroom
 and playground duty, faculty meetings, parent conferences, PTA meetings, inservice activities, and extracurricular activities (except those for which extra compensation is
 received).
- Complete two ADEPT Formative Observations and take an active part in the ADEPT SCTS 4.0 Rubric Consensus Evaluation.
- Communicate with the US on a regular basis concerning the progress of the TC.
- Participate in a consensus meeting with the US at the end of the placement.
- Complete assigned reports, based on scripted evidence taken while observing, and submit reports into LiveText by the designated due dates.
- Complete and submit the Evaluation of University Supervisor Survey of the USC Upstate teacher education program when solicited.

Roles and Responsibilities of University Supervisors

The US provides the primary link between the public school and the CoEHPH. The US assumes direct responsibility for the TC and works closely with the CT and school administrators to ensure the progress and well-being of the students impacted by the TC. Duties and responsibilities of the US include:

- Serve as a liaison between the University and public school. Alert the Director of Field Experiences regarding any concerns as they occur.
- Attend meetings required by the Director of Field Experiences and/or USC Upstate.
- Visit the TC a minimum of three times during each double placement, or six times during a single placement, making at least four teaching observations with at least two follow-up conferences.
- Conduct conferences, as needed, with the TC and provide both constructive criticism and positive reinforcement.
- Communicate regularly with the CT concerning the progress of the TC

- Complete at least two ADEPT Formative evaluations, based on scripted evidence taken while observing, and submit reports into LiveText by the designated due dates.
- Conduct a three-way conference at the beginning of each placement to meet the CT and TC.
- Complete two Expanded ADEPT 4.0 evaluations (including pre- conference and postconference), based on scripted evidence taken while observing, and submit reports into LiveText by the designated due dates.
- Complete the ADEPT SCTS 4.0 Rubric Summative Consensus Evaluation/Addendum in LiveText.
- Conduct a consensus meeting and complete the ADEPT SCTS 4.0 Consensus Rubric in LiveText.
- Enter all evaluations into LiveText according to the due dates assigned there.
- Follow the removal procedure, when necessary, in cooperation with the Director of Field Experiences.
- Verify and collect the 65-day verification form and the Student Teaching Observation Schedule with all required signatures and submit to the Director of Field Experiences by the designated due date, along with an overall rating of the TC as satisfactory (S) or unsatisfactory (U).

Roles and Responsibilities of Teacher Candidates

For the TC, the Student Teaching experience provides an opportunity to synthesize and apply knowledge and skills accumulated during college coursework. TCs are expected to be positive and cooperative and to understand that the welfare of public-school students is their primary responsibility. The responsibilities of the TC include:

- Provide meaningful learning experiences on a daily basis through implementing wellplanned lessons and unit plans approved by the CT.
- Submit weekly lesson plans to the US and CT for the following week by Saturday at noon each week, unless otherwise specified by the US.
- Write a weekly reflection and submit it to the US along with weekly lesson plans (see Appendix A as an example) each Saturday by noon, unless otherwise specified by the US.
- Actively seek suggestions and advice from the CT and be receptive to constructive criticism.
- Work cooperatively with teachers, students, families, administrators, and the US.

- Develop, with the CT, long-range plans for the gradual assumption of all teaching responsibilities in the classroom.
- Assume total teaching responsibilities consistent with the timeline provided in this handbook.
- Adhere to the daily schedule of the CT including such activities as bus duty, lunchroom and
 playground duty, faculty meetings, parent conferences, PTA meetings, in-service activities,
 and extracurricular activities (this does not include activities for which the cooperating teacher
 receives extra compensation such as coaching).
- Adhere to the calendar of the assigned school district as opposed to the academic calendar of the University.
- Notify the CT, the receptionist of their school, and the university supervisor in case of absence or in case of leaving school early or arriving at school late due to an emergency.
- Maintain the role of a TC, only acting as a substitute teacher when appropriate (see Appendix B).
- Implement discipline which demonstrates respect for the child NEVER engaging in or serving as a witness to corporal punishment.
- Behave, speak, and dress in a professional manner throughout your placement.
- Communicate with teachers, students, administrators, families, and university personnel in a professional manner at all times.
- Recognize that neither employment nor additional coursework should interfere with the responsibilities associated with Student Teaching.
- Attend co-requisite courses and Student Teaching Orientation session.
- Refrain from using technology apart from placement-related tasks during school hours (Netflix, social media, phone usage including texting, etc.).
- Refrain from reaching out to any student via social media for any reason at any time.
- Refrain from taking photos or videos of students and/or posting them on any social media platform.
- Complete the Exit Assessment and Teacher Work Sample according to CoEHPH requirements.
- Complete the Standards of Professional Conduct and Dispositions Self-assessment prior to the Pinning & Hooding Ceremony.
- Complete surveys including the evaluation of the CT, evaluation of the US, and the Senior Survey prior to the end of the semester.
- Complete all Student Teaching requirements prior to the Pinning & Hooding Ceremony.
- Complete Steps for Certification (see Appendix D).

Schedule for Student Teaching

Arrangements for the TC to gradually assume instructional responsibilities (up to the first 3 weeks) and then gradually relinquish instructional responsibilities (during the last 3 weeks) in the classroom must be determined on an individual basis between the CT, US, and the TC. It is desirable that the TC have as much experience in all standards of teaching as possible.

In an ideal situation, the TC will gradually assume responsibility for classroom instruction. This allows the TC time to gain some mastery over one level of instruction before adding a second area of responsibility. Gradual assumption of teaching responsibilities (start date on) also makes the transition from CT to TC smoother for students in the classroom. A similar approach is desirable as the TC returns teaching responsibilities to the CT (end date back).

The following general example of a schedule applies for all certification areas.

Week 1: TCs become oriented to the new classroom, observe both teacher and students, learn students' names, assume small housekeeping chores, and assist with individual students and/or small groups. This is also the time for the CT and the TC to make long-range plans for the transitioning of teaching responsibilities.

Week 2: TCs begin preparing and teaching one, two, or three different subjects (or classes). For example, an elementary TC might assume responsibility for teaching science and math each day and toward the end of the second week begin planning for teaching social studies and ELA.

Remainder of the Weeks: Subjects or classes are gradually added so that by the third week the TC has full responsibility for the classroom. The CT will gradually reassume responsibility for instruction during the last three weeks of the Student Teaching experience.

During the last week of a TC's placement, it is desirable for the TC to observe in other classrooms in the building. This should include different content areas, and grade levels as well as special education and related arts rooms.

USC Upstate ADEPT Observation and Assessment Schedule

This is a *suggested* framework for the ADEPT observations. Some flexibility may be necessary to accommodate individual and school schedules.

SINGLE PLACEMENT (Early Childhood, Elementary, Middle, Secondary) Week 1 Introduction, Planning Visit Week 3 US's ADEPT Formative Assessment #1 Week 5 CT's first Formative Assessment Week 6 US's Expanded ADEPT 4.0 Assessment #1 Week 9 CT's second Formative Assessment Week 10 US's ADEPT Formative Assessment #2 Week 12 US's Expanded ADEPT 4.0 Assessment #2 Week 14 US's ADEPT Summary Assessment from three-way conference, CT's **USC Upstate Program Evaluation** DUAL PLACEMENT (Physical Education, Special Education, Art) PLACEMENT ONE Week 1 Introduction, Planning Visit Week 2 US's ADEPT Formative Assessment Week 3 CT's Formative Evaluation Week 4/5 US's Expanded ADEPT 4.0 Assessment Week 7 US's ADEPT Summary Assessment from conference with CT, CT's **USC Upstate Program Evaluation** PLACEMENT TWO Week 1 Introduction, Planning Visit Week 2 US's ADEPT Formative Assessment Week 3 CT's Formative Evaluation Week 4/5 US's Expanded ADEPT 4.0 Assessment Week 7 US's ADEPT Summary Assessment from conference with CT, CT's USC Upstate Program Evaluation

Absence of a Cooperating Teacher

Should a CT be absent from the classroom, the school district will provide a certified substitute to work with the TC. For a short-term absence, if agreed upon by the cooperating administrator and the school principal, the TC may be eligible to serve as the substitute teacher (see Appendix B). Those days would not count toward the 65 required days for Student Teaching, however.

Absence of the Teacher Candidate

TCs are expected to be present in the classroom each day of the Student Teaching experience. Attendance at a professional conference may be allowed **if approved in advance**. *If a teacher candidate must be absent, three individuals must be notified before the beginning of the school day and preferably the day before the absence--the cooperating teacher, the university supervisor, and the receptionist of their assigned school.* If a personal emergency should occur which requires the teacher candidate to leave the school during a school day, the CT and the US must be notified. In the case of an absence, individual arrangements must be made for the TC to make-up days/hours missed. <u>All</u> missed days/hours, unless approved by the Director of Field Experiences (See Appendix G), must be made up at the end of Student Teaching. This includes leaving early and/or arriving late at your assigned school.

STUDENT TEACHING EVALUATION

At the conclusion of the Student Teaching experience, TCs will receive a grade of Satisfactory (S) or Unsatisfactory (U). Determination of the final grade is the responsibility of the Director of Field Experiences, in conjunction with feedback from the US and CT.

Informal Evaluation

Continuous informal (formative) evaluation makes a significant difference in the performance of the TC. Every day, either at the conclusion of the school day or during a planning period, the TC and the CT should meet together to critique lessons taught by the TC and to consider alternatives for improvement. The CT is encouraged to be candid but supportive. It is important not to lose sight of the fact that Student Teaching is a learning experience, and teacher candidates are not yet employed as professionals.

Formal Evaluations Required by USC Upstate

Two types of formal evaluations are to be completed by the CT and the US during each Student Teaching placement. The first of these is a formative evaluation incorporating specific competencies aligned with the ADEPT SCTS 4.0 Rubric for the evaluation of effective teaching designated by the CoEHPH. A copy of this form is to be completed by the CT and US at specified points during each placement and shared and discussed with the TC, allowing for optimum candidate growth and development.

The key assessment ADEPT SCTS 4.0 Rubric Summative Evaluations is to be completed by both the CT and the US at the conclusion of each placement, and a consensus meeting should be held between the US and CT. Results are to be discussed with the TC by the US. Each of these exchanges should be scheduled at a time and place when P-12 students are not present. Some US' require that the TC complete both formative and summative self-evaluations. Copies of all formal evaluations become part of the TC's permanent file in the USC Upstate CoEHPH.

In addition to two formal evaluations, USs are to complete two Expanded ADEPT evaluations for a total of four formal observations during Student Teaching. These Expanded ADEPT evaluations will include a pre-conference, observation, and post-conference. The pre and post-conferences will be conducted between the US and the TC. After the post-conference, the US will complete the ADEPT SCTS 4.0 Rubric (see Appendix C) and provide the results to the TC orally and through LiveText. Documentation from the pre-conference and post-conference will also be submitted through LiveText. These thorough, formal observations, in addition to continual informal oral and written feedback, provide optimum opportunity for candidate growth and development throughout Student Teaching and are based on South Carolina's Expanded ADEPT SCTS 4.0 Rubric.

Evaluation of Program and Personnel

In order to monitor the effectiveness of the USC Upstate teacher education program, a number of different evaluation instruments are employed. These solicit the feedback of all who are involved in the Student Teaching process. At the end of the semester, TCs in Student Teaching complete two evaluation forms, one regarding their CT and one regarding their US, and TCs in FE 1 and FE 2 complete one evaluation form regarding their CT and an end of course evaluation.

The CT completes two evaluation forms at the conclusion of the Student Teaching experience. The first evaluates the USC Upstate teacher education program based on the performance of the TC. The second evaluates the performance of the US.

The US completes and submits an evaluation form based on the performance of the CT. All of the data collected electronically is reviewed by the Coordinator of Accreditation and Assessment, who summarizes it, shares it with the Director of Field Experiences, and uses the information gathered for reports to various accrediting agencies. This allows for improvement of field experiences and the communication with and training/professional development for schools, CTs, and US'.

The information gathered from these evaluations form the basis for changes made in the teacher education program in general. Curriculum changes resulting from comments on forms completed by cooperating teachers and teacher candidates include the addition of a course on classroom management and a course on testing and measurement. Revision of the program is a continuous process as different needs become apparent. In making revisions, input is sought from all involved in the Student Teaching program: US', CTs, cooperating administrators, district office personnel and TCs.

REMOVAL OF A TEACHER CANDIDATE FROM A FIELD EXPERIENCE

The College of Education, Human Performance, and Health will enforce the following policy concerning the removal of a TC from any field experience, including Student Teaching. This policy will cover removal prior to the end of the semester. The criteria for evaluating TCs are based on the goals and objectives agreed upon by the faculty and published in this manual. These goals and objectives are incorporated in the unit's formative and summative evaluation forms. Judgments concerning the effectiveness of TCs will be based on these criteria. Cause for early removal from a field experience will be based on deficiencies in any of the following areas:

- Effective teaching (instruction and planning)
- Classroom management (instruction and behavior)
- Content knowledge
- Oral and written communication skills
- Ethical and professional behavior (including health problems that jeopardize others within the normal confines of the classroom)

Evidence for less than satisfactory performance may be documented by, but not limited to, any of the following: USC Upstate formal observations, formal two-way or three-way conferences, the key assessment Dispositions Evaluation, and the key assessment ADEPT SCTS 4.0 Rubric Evaluation. The teacher education program expects candidates to perform at a satisfactory level on the key assessment rubric evaluations.

I. Process

The following procedures and practices will be followed when a student teacher has been identified as performing below a satisfactory level.

- 1. The TC must be observed and evaluated by at least two USC Upstate CoEHPH faculty members.
- 2. The TC must be observed and evaluated by the CT and, when possible, an additional classroom teacher or a school administrator.
- 3. The TC will be observed by a university faculty member at least once a week until performance reaches a satisfactory level, or a decision is made to remove the TC.
- 4. A copy of all formative and summative evaluations, with recommendations for change, will be provided to the student teacher and the cooperating teacher.

- 5. At least one three-way conference will be conducted with the TC, CT, and US. Documentation should include suggestions for improvement. The conference should be conducted at least one week prior to withdrawal of the TC.
- 6. The TC must be notified in writing that removal from Student Teaching/FE 1/FE 2 will occur unless significant improvement is made in teaching performance.
- 7. Ineffectiveness in one area might be serious enough to cause removal even though improvement occurs in other areas.
- 8. An Improvement Plan may be required at any point in the process.

A TC may be removed immediately upon the request from the cooperating administrator (or the principal acting as an agent of that district), in which case, the processes above may or may not have been completed. Immediate removal will result in dismissal from the professional program. Readmission to the professional program is governed by the petition process and should be directed to the Scholastic Standing and Petitions Committee.

A conference involving the TC and the Director of Field Experiences (which may also include the Dean, Associate Dean, or Department Chair) will be conducted upon removal of the TC from placement. After removal, the following grades may be assigned:

- 1. Removal from the field experience with the assignment of a grade of "U."
- 2. Removal from field experience with the assignment of a grade of "I."
 - i. A grade of "I" (incomplete) will result in the teacher candidate repeating the entire semester of the field experience. A contract will be developed to ensure identified deficiencies will be addressed.

II. Student Appeal

If the Teacher Candidate chooses to petition removal from a field experience, the TC should refer to the *Removal of a Teacher Candidate from Field Experience Petition Process* located in the CoEHPH student handbook.

INTERNSHIP CERTIFICATE REQUIREMENTS

The internship certificate is an alternative pathway to achieving a teaching certificate (see Appendix F). "The Internship certificate is available to an eligible TC* who is currently enrolled in a State Board of Education-approved educator preparation program in South Carolina and has been approved by the college or university for participation in an internship program. The candidate must have completed all academic and bachelor's degree requirements, with the exception of the teaching internship, as well as all certification examination requirements. The certificate will be issued for up to one year and must be requested by the employing school district. Upon completion of the teaching internship and verification by the college or university that all approved program requirements have been met, the internship certificate will be converted to an initial certificate. The internship certificate request must be initiated by the school district and partnering institution of higher education. The candidate must have a complete student teaching application with fee, cleared background reports, and test scores on file" (The South Carolina Department of Education, 2018).

The internal application for an internship certificate must be received by CoEHPH before the beginning of Student Teaching (Spring Placement: November 1st; Fall Placement: May 1st). Check the internship eligibility requirements before applying.

- *An eligible TC is defined at USC Upstate as having:
- Passed all Praxis & PLT exams required for certification (exams must've been taken by May 1st and passing scores received no later than June 15th)
- A GPA of 3.5 or greater from Program of Study (with exception to the Reach Up! pathway)
- Exemplary or Acceptable ratings in all dispositions assessments conducted in field experiences
- The recommendation of the Department Chair in consultation with program faculty

If approved by CoEHPH, the Department Chair will complete an official application for an internship certificate with the SCDE on behalf of the TC. A specific school district request and classroom assignment will be necessary prior to submission. Candidates with an internship certificate are enrolled in Student Teaching at USC Upstate and must fulfill the same requirements as traditional Teacher

candidates. The differences are as follows:

- The Teacher Candidate with an internship certificate is the teacher of record in his/her own classroom.
- An assigned mentor serves as the CT and follows the same observation and evaluation schedule as one would for a traditional Teacher Candidate.
- The Teacher Candidate is a hired employee by the school district partner hosting him/her.

APPENDIX A REFLECTIVE JOURNALASSIGNMENT

One of the requirements of Student Teaching is the reflective journal. As teacher candidates, you will write a weekly reflection to include introspection, feelings, and reactions to happenings of the week in the classroom. The basis for this is the idea that writing is a means of reflection, and that reflection on experience leads to meaningful learning. Such reflection will allow you to isolate positive teaching experiences, to analyze what made them positive, and to repeat them. Likewise, negative teaching experiences will be isolated, analyzed and may be eliminated or avoided in the future. Some types of journal writing are "free form" with few or no stipulations on format or content. However, the reflective journal is a bit more "systematic" in that its format leads one through a series of questions designed to promote description, reflection, and action. The following guidelines (from Posner, 1985; Pultorak, 1983; Smythe, 1989), "shape" the form and contents of the reflective journal.

- 1. Keep a journal during <u>each</u> practicum and <u>each</u> Student Teaching experience.
- 2. Write one entry per week in the journal.
- 3. One copy of this weekly reflection should be emailed to your University Supervisor no later than Saturday by 12:00 noon and one copy should be kept in a notebook.
- 4. Each entry is composed of three parts:
 - a. *Description* of an experience (What happened? What did I do? What did the students do? What did the cooperating teacher do?
 - b. *Reflection* upon the experiences (What does it mean? OR How do you view what happened? What informed your decision or interpretation of the meaning?).
 - c. *Decisions, conclusions, or actions* on how subsequent teaching will change as a result of the experience and reflection (How will I teach differently in the future? How can I maintain the <u>positive</u> and avoid the negative?)
- 5. Each week's entry should be a description of and reflection upon a critical teaching experience that contributed to the teacher candidate's growth as an educator.

A "teaching experience" encompasses all aspects of instruction (preparation, planning, teaching, etc.) as well as all other relationships within the school: teacher-student(s) interaction; teacher-teacher interaction; teacher-administrator interaction; teacher-parent interaction; and teacher-central office personnel interaction.

APPENDIX B Substitute Policy

In November 2016, the South Carolina Department of Education issued a Memorandum regarding Teacher Candidates (TC) receiving compensation during the time they are Student Teaching. TCs are now allowed to receive compensation during Student Teaching, which means that the TC can substitute teach for their CT when the CT is absent. The TC <u>must</u> complete the process for becoming a substitute teacher in the district they are Student Teaching <u>before</u> they are eligible to act as the substitute teacher. The TC can only act as the substitute teacher for his/her CT. The days that the TC acts as the substitute teacher will not count toward the 65 required days (attendance or instructional) for Student Teaching. Taking on substitute teaching responsibilities will result in a TC having to make up days to fulfill the Student Teaching requirements at the end of their scheduled experience.

Ultimately, the choice to allow TCs to act as substitute teachers is up to school district personnel (Superintendents and Cooperating Administrators). If district personnel or the school's principal do not allow TCs to act as substitute teachers for CTs, this policy is void.

APPENDIX C South Carolina Teaching Standards (Expanded ADEPT) 4.0 Rubric

Teacher Content Knowledge* teaches. Teacher consis variety of subje strategies to et knowledge of i teaches. Teacher consis variety of subje strategies to et knowledge.1 The teacher co concepts and it bases to conne united conten depth to allow understanding	students* arrangements (eith small groups, pairs, hetero- or homoge consistently maxim understanding and all students in grou roles, responsibiliti work expectations. All students particil held accountable for individual work. Instructional group varied (e.g., race, g and age) to best ac goals of the lesson. Instructional group opportunities for si goals, reflect on, an learning.
Teacher displays extensive content knowledge of all the subjects she or he teaches. Teacher consistently implements a variety of subject-specific instructional strategies to enhance student content knowledge. The teacher consistently highlights key concepts and ideas, and uses them as bases to connect other powerful ideas. Limited content is taught in sufficient depth to allow for the development of understanding.	arrangements (either whole class, small groups, pairs, individual; hetero- or homogenous ability) consistently maximize student understanding and learning efficiency. All students in groups know their roles, responsibilities, and group work expectations. All students participating in groups are held accountable for group work and instructional group composition is varied (e.g., race, gender, ability, and ago) to best accomplish the goals of the lesson. Instructional groups facilitate opportunities for students to set goals, reflect on, and evaluate their learning.
Teacher displays accurate content knowledge of all the subjects he or she teaches. Teacher regularly implements subject-specific instructional strategies to enhance student content knowledge. The teacher regularly highlights key concepts and ideas, and uses them as bases to connect other powerful ideas.	arrangements (either whole class, small groups, pairs, individual; hetero- or homogenous ability) adequately enhance student understanding and learning efficiency. Most students in groups know their roles, responsibilities, and group work expectations. Most students participating in groups are held accountable for group work and individual work. Instructional group composition is varied (e.g., race, gender, ability, and age) to most of the time, accomplish the goals of the lesson.
Teacher displays adequate content knowledge of all the subjects he or she teaches. Teacher sometimes implements subject-specific instructional strategies to enhance student content knowledge. The teacher sometimes highlights key concepts and ideas, and uses them as bases to connect other powerful ideas.	arrangements (either whole class, small groups, pairs, individual; hetero-or homogenous ability) sometime enhance student understanding and learning efficiency. Some students in groups know their roles, responsibilities, and group work expectations. Some students participating in groups are held accountable for group work and individual work. Instructional group composition is varied (e.g., race, gender, ability, and age) to sometime, accomplish the goals of the lesson.
Teacher displays underdeveloped content knowledge in several subject areas. Teacher rarely implements subject specific instructional strategies to enhance student content knowledge. Teacher does not understand key concepts and ideas in the displine, and therefore presents content in an unconnected way.	arrangements (either whole class, small groups, pairs, individual; hetero-or homogenous ability) inhibit student understanding and learning efficiency. Few students in groups know their roles, responsibilities, and group work expectations. Few students participating in groups are held accountable for group work and individual work. Instructional group composition remains unchanged irrespective of the learning, and instructional goals of a lesson.

Teacher Knowledge of Studentsro	Teacher practices display understanding of each student's anticipated learning difficulties. Teacher practices consistently incorporate student interests and cultural heritage. Teacher consistently provides differentiated instructional methods and content to ensure children have the opportunity to master what is being taught.	Teacher practices display understanding of most student anticipated learningdifficulties. Teacher practices regularly incorporate student interests and cultural heritage. Teacher regularly provides differentiated instructional methods and content to ensure children have the opportunity to master what is being taught.	Teacher practices display understanding of some student anticipated learningdifficulties. Teacher practices sometimes incorporate student interests and cultural heritage. Teacher sometimes provides different lated instructional methods and content to ensure children have the opportunity to master what is being taught.	Teacher practices demonstrate minimal knowledge of students anticipated learning difficulties. Teacher practices rarely incorporate student interests or cultural heritage. Teacher practices demonstrate little differentiation of instructional methods or content.
Thinking ¹¹	The teacher thoroughly teaches thre e types of thinking; analytical thinking where students analyze, compare and contrast, and evaluate and explain information. practical thinking where students use, apply, and implement what they learn in real-life scenarios. creative thinking where students create, design, imagine and suppose. research-based thinking where students explore and review a variety of ideas, models, and solutions to problems. The t eacher consistently provides opportunities where students: generate a variety of ideasand alternatives. analyze problems from multiple perspectives and viewpoints. monitor their thinking to ensure that they understand what they are learning, are attending to critical information, and are aware of the learning strategies that they are using and why.	The teacher thoroughly teaches two types of thinking; analytical thinking where students analyze, compare and contrast, and evaluate and explain information. practical thinking where students use, apply, and implement what they learn in real-life scenarios. creative thinking where students explore and suppose. research-based thinking where students explore and review a variety of ideas, models, and solutions to problems. Thet e acher regularly provides opportunities where students: generate a variety of ideas and a tternatives. analyze problems from multiple perspectives and viewpoints.	The teacher attempts to teach one type oft hinking: analytical thinking where students analy,e, compare and contrast, and evaluate and explain information. practical thinking where students use, apply, and implement what they learn in real-life scenarios. creative thinking where students create, design, imagine and suppose. research-based thinking where studentsexplore and review a variety of ideas, models, and solutions to problems. The teacher sometimes provides opportunities where students: generate a variety of ideas and alternatives. analyze problems from multiple perspectives and viewpoints.	The teacher implements no learning experiencesthat thoroughly teachany type of thinking. The teacher provides few opportunities where students: generate a variety of ideasand atternatives. analyze problems from multiple perspectives and viewpoints.

 The educator accepts leadership responsibilities and/or assists in peers contributing to a safe and orderly school environment. 	The educator actively supports school activities and events.	The educator utilizes student achievement data to address strengths and weaknesses of students and guide instructional decisions.	The educator accepts responsibilities contributing to school improvement.	The educator offers specific actions to improve his/her teaching.	The educator makes thoughtful and accurate assessments of his/her lessons' effectiveness as evidenced by the self-reflection after each observation.	The educator selects specific activities, content knowledge, or pedagogical skills to enhance and improve his/her proficiency.	The educator develops and works on a yearly plan for new learning based on analyses of school improvement plans and new goals, self-assessment, and input from the teacher leader and principal observations.	The educator appropriately attempts to implement new learning in the classroom following presentation in professional development meetings.	The educator is prompt, prepared, and participates in professional development meetings, bringing student artifacts (student work) when requested.	Performance Standard	PROFE

APPENDIX D Steps to Certification

- ☐ Go to the CATS portal (https://cert.ed.sc.gov) and verify that your contact information is accurate.
 - O Verify that your fingerprints were submitted within the past 18 months. If they were submitted in the last 18 months, you do not need to re-submit them. If you paid the \$105 application fee within the past 3 years, you do not need to re-pay the fee.
- □ Achieve a passing score for your specific PRAXIS II and PLT exams make sure you name USC Upstate as an institution with whom to share the scores. Email Mrs. Lyndell Marks (lyndell@uscupstate.edu) once you receive your score report from ETS.
- ☐ If you have changed your name, please notify Mrs. Lyndell Marks.
- ☐ Approximately four weeks after graduation, your degree will post in SSC. Once it has posted it, it will appear on your unofficial transcript like this.

□ Transcripts:

- After confirming your degree has posted, you must send your official transcripts to: Office of Educator Services 428 Wholesale Lane, West Columbia, SC 29172. They can be sent electronically to transcripts@ed.sc.gov. Your transcripts must come directly from USC. You can find a link to request transcripts in SSC.
- After your degree has posted, the University will send your recommendation letter to the State Department. Please allow up to eight weeks for your letter to be processed by the Office of Educator Services.

APPENDIX E Contact List

Student Teachers

- For questions about assignments, placement, concerns, absences, and expectations contact Dr. Amy Stevenson (as314@uscupstate.edu).
- For questions about applying for Student Teaching, background check status, TB test status, or clearance with the State Department, contact Lyndell Marks (lyndell@uscupstate.edu).
- For questions about LiveText, contact (TBA).
- For questions about the status of your Certification after graduation, contact Lyndell Marks (lyndell@uscupstate.edu).

Cooperating Teachers

- For questions about assignments, placement, concerns, absences, and expectations contact Dr. Amy Stevenson (<u>as314@uscupstate.edu</u>).
- For questions about your letter for points towards re-certification, contact Lyndell Marks (<u>lyndell@uscupstate.edu</u>).
- For questions about LiveText, contact (TBA)
- For questions regarding using your voucher towards classes at USC Upstate, contact Alyssa Dickerson-Moody (<u>dickersa@uscupstate.edu</u>).

University Supervisors

- For questions about Livetext, contact (TBA).
- For questions regarding payment, contact Kelly Crow (<u>kcrow2@uscupstate.edu</u>).
- For all other questions, contact Dr. Amy Stevenson (<u>as314@uscupstate.edu</u>).

APPENDIX F Internship Information Sheet

Internship Information Sheet

An eligible teacher candidate is defined at the University of South Carolina Upstate as having:

- The specific district request and classroom assignment
- Passed all Praxis and Praxis II exams required for teaching
- A GPA of 3.5 or greater from Program of Study (with exception to the Reach Up! pathway)
- An Exemplary or Acceptable rating in all dispositions assessments conducted in field experiences
- The recommendation of the Department Chair in consultation with program faculty

Details

- 1. Be sure to check the internship requirements before applying.
- 2. Most students will be enrolled in their second field experience when applying for the internship certificate.
- 3. If selected for an internship position:
 - It will be a paid position with the district that hires you. At least one interview is likely.
 - You will be teaching full-time while Student Teaching.
 - You will still pay regular tuition to USC Upstate.
 - You will still register to take the Student Teaching course and Pull-Back course.
- 4. Submission of an application will not ensure that a candidate is hired.
- 5. Students should not contact districts/principals prior to getting clearance. We have forms to streamline the process.
- 6. Notice that the first application to submit is internal. If a candidate is approved at that step, then the official application for an Internship Certificate will be required by the SCDE. The deadlines for that are December 1st for a spring internship and July 15th for a fall internship.

7. "The internship certificate request with the SCDE must be initiated by the school district and partnering institution of higher education. The candidate must have a complete student teaching application with fee, cleared background reports, and test scores on file."

(The South Carolina Department of Education, 2018)

Process Simplified

- 1. Take and pass the appropriate Praxis II and PLT exams. Be sure to have USC Upstate named as a score recipient.
- Complete and submit an internal application to show interest in pursuing the internship
 Certificate. Access the internship internal application here <u>Student Internship Application</u>
 Formstack.
- 3. The Department Chair and Director of Field Experiences will review the application and schedule a meeting to discuss next steps and answer questions if all eligibility requirements have been met.
- 4. Once the meeting has been conducted, the Department Chair will contact the Teacher Candidate's program faculty to receive recommendations on behalf of the student.
- 5. If the student is approved for the Internship Certificate, the Director of Field Experiences will work with the student and a partnering district to facilitate the process of hiring.

Reminder: There is no guarantee of an internship, even if requirements have been met at USC Upstate. Each candidate will need to interview as a potential new employee with the hiring district and an appropriate job opening must be available.

APPENDIX G Absence Request Form for Student Teachers (link provided in Blackboard) Note: Submission does not ensure approval.

Absence Request Form for Student Teachers

This form is to be submitted for scheduled events. One would not submit this form for an unexpected illness or personal emergency, in which case the procedures outlined in the Field Experience Handbook (contacting the cooperating teacher, school secretary, and university supervisor and making the time up at the end of the placement) should be implemented. Please note that this form should be used for each day that is being requested to be absent.
