ADAPTING CONTENT TO YOUR NEEDS

Review the sample training slides. Answer the questions below.

What content would you keep/prioritize for your training?

What content would you remove?

What content would you add?

How would you modify the learning for a different format or audience? (Consider strategies for making the session interactive.)

CSA TRAINING PLAN: QUESTIONS TO CONSIDER

In the below chart, begin to develop a CSA training plan. This could be for an audience of CSAs from various departments on campus or specific to just one department.

CSA Training Audience:
When would it be ideal to train this CSA audience?
What specific instructional methods would you use with this audience?
How much time do you need/might be available to train this audience?
Who can help you coordinate/facilitate training with this audience?
What might be challenging in training this audience?
