### **Other Positions and Employment**

<b>Charge Nurse/Spartanburg Medical System/Spartanburg, SC</b>	<b>03/2016-12/2022</b>
--	------------------------

Conducts daily clinical supervision of a cardiac step-down unit with thirty-two beds and 15-17 staff members. Works collaboratively with staff and physicians to make sure we remain the patient advocate and patients remain safe. Daily assignments, daily RN updates regarding patients and any change in assignments. Rounds on all thirty-two patients daily to make sure their needs are met, and the patient is satisfied with the care provided.

**Clinical Nurse/Cardiology Consultants/Spartanburg, SC****10/2014-Current**

Provide care for patients in an office setting with ten cardiologists. Gathering data such as current med list, vitals and an EKG are provided prior to physician visit. Also, we assist physicians in scheduling procedures and providing patients with all the information needed to understand said procedure. With critical thinking skills, the RNs would call patients back from the message line and relay or gather advice from physicians to answer their questions.

**Registered Nurse/Spartanburg Medical Center/Spartanburg, SC****12/2012-10/2014**

Provides acute and close monitoring of adults pre- and postoperative open-heart, manage IV and oral medications to stabilize acute and chronic disease for arrhythmias, manage anticoagulation therapy, prepare patients for cardioversion, prepares patients by education for echocardiogram and stress testing, monitors chest tubes, various drainage devices, pacer wires, and external pacers, closely monitors effectiveness of IV drip cardiac medications and insulin drips, closely monitor postop heart cath patients and removal of sheaths, manage critical care rooms for post op carotid and various lung surgeries, works collaboratively with surgeons, cardiologists, and interns to achieve optimum patient care, preceptors for Senior Nursing Students and Registered Nurse Applicants

**Home Health Nurse/Gentiva Home Health/Spartanburg, SC****07/2012-12/2012**

Provide care to patients who are homebound with wounds, wound vacuum systems, intravenous medications, lab work in the home. This included admission to the program, recertifying and once able, discharging from the program. All care depends on collaborative teamwork and communication with the patient, the physician and the nurse.

**Home Health Nurse/Interim Home Health/Spartanburg, SC****01/2009-03/2010**

Provide care for a child with severe brain injury. Included in my position was the total care in the activities of daily living. Administered meds through j-tube, assisted with range of motion, assisted in physical therapy.

**Registered Nurse/Spartanburg Medical Center/Spartanburg, SC****08/2006-07/2012**

Provides acute and close monitoring of adults pre- and postoperative open-heart, manage IV and oral medications to stabilize acute and chronic disease for arrhythmias, manage anticoagulation therapy, prepare patients for cardioversion, prepares patients by education for echocardiogram and stress testing, monitors chest tubes, various drainage devices, pacer wires, and external pacers, closely monitors effectiveness of IV drip cardiac medications and insulin drips, closely monitor postop heart Cath patients and removal of sheaths, manage critical care rooms for post op carotid and various lung surgeries, works collaboratively with surgeons, cardiologists, and interns to achieve optimum patient care, preceptors for Senior Nursing Students and Registered Nurse Applicants, as this is a teaching hospital.
