## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2024-25. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Number of students in supervised clinical experience during this academic year

241

**Please provide any additional information about or descriptions of the supervised clinical experiences:**

After reviewing the definition of the key term "supervised clinical experience" as hyperlinked above, the number of cooperating teachers/K-12 staff supervising clinical experience was calculated by adding the cooperating teachers supervising field experience students and cooperating teachers supervising student teachers. Likewise, the number of students in supervised clinical experiences includes students enrolled in clinical/field experiences and students enrolled in student teaching experiences.

# Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

**(§205(a)(1)(C)(ii))**

# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

## THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

**Note:** This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The CoEHPH works closely with our local partnership pk-12 schools to address the needs of the local communities. Additionally, our initial teacher certification programs have selected pre-student teaching field experience sites in specific schools that reflect diversity in their student populations, faculty populations, and in their curricula. Select schools include those with high needs and at-risk student populations, year-round schedules, high free/reduced lunch student populations, language/cultural immersion classrooms, single-gender classrooms, ELL student populations, and/or LEP student populations. These placements are found in both urban and rural settings. Placement practices are deliberate to assure our teacher candidates are able to meet the needs of all PK-12 students.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The goal to increase the candidate enrollment in Special Education continues to be a Program priority. In these efforts, three actions are followed (1) Responsive Advisement, (2) Program Promotions, and (3) Completer Satisfaction. (1) Responsive Advisement To better meet the needs of the future teachers, academic advisement for a degree in special education is offered to candidates in both face-to-face and virtual environments. Candidates are contacted by the advisor and encouraged to electronically select an appointment time. If the options are not conducive to the advisees' schedule, the advisor and student then individually identify a date and time that is best for both. The advisor, who is a faculty member in special education, provides written copies of the coursework discussed. Both short-term (semester) and long-term (graduation) goals are mapped out to provide a clear pathway to Program completion. (2) Program Promotions The special education faculty member teaches the special education introduction class, a course

required of all teacher licensure preparation programs. Subsequently, this faculty member shares first-hand about the opportunities to obtain a degree in special education and assists the student with determining if it is a career path for them. 3) Completer Satisfaction The special education faculty member continues to be in contact with the Program's former graduates. Program completers often serve as clinical host teachers and participate in various on-campus activities, including guest lecture opportunities. Graduates have a Facebook page which is often used instructionally to share ideas and/or promote self-efficacy and comradery. Additionally, the Program has a designated bulletin board at the entrance to the College; it displays classroom pictures provided by former candidates. The Program also created a flyer advertising the opportunities offered by the Special Education Learning Disability Program that may be disseminated at community and college events.

# Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All College of Education, Human Performance, and Health (CoEHPH) students complete a general information technology course and courses that emphasize education-specific technologies. Moreover, all CoEHPH classrooms contain an interactive white board in a smart classroom that faculty use to model effective teaching. Students also practice using this equipment during their presentations in the university classrooms, as well as lesson implementation in their field experience settings. The college has also recently created a mock classroom, where teacher candidates have access to various types of technology they will encounter in the classroom. All methods courses require technology integration projects and presentations. All programs align curricula with ISTE standards. Furthermore, teacher candidates' complete components of the Teacher Work Sample in stages as they progress through their field experience placements with a final Teacher Work Sample due at the completion of student teaching. Several of the components of the Teacher Work Sample require students to develop and administer formative and summative assessments, analyze student data, and interpret student data in a pre/post assessment. All collected data must be entered, graphed, analyzed, interpreted, and presented, using database and graphing/presentation software. Students are asked to reflect on the data compiled to find areas of success and points of weakness in an effort to increase student achievement.

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

**Note:** This section is preloaded from the prior year's IPRC.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

Ingrained in all professional program courses is the idea of cultivating agency in the teacher candidate. This is executed through curricula that provide teacher candidates with the theoretical and practical aspects of teaching all students, including those students with disabilities. Students learn how modifications to curriculum, classroom environment, and open communication with parents, can create a classroom where all students have an opportunity to achieve success. Further, all CoEHPH students must enroll in and complete EDFO U341- Introduction to Exceptional Learners / Special Education, a course that addresses characteristics, assessment, and effective instructional procedures for students served under IDEA and/or Section 504 of the Rehabilitation Act of 1973, including the general educator's role and needs of students of varying exceptionalities.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

All USC Upstate teacher candidates enroll in EDFO U341-Introduction to Exceptional Learners/Special Education. Students in this course learn about the various roles and responsibilities of all IEP team members through lecture, discussion, and course readings. This knowledge is measured by reading checks as well as a midterm exam. Students also create presentations where they identify IDEA laws and regulations and how those apply to their future careers as educators. Accommodations and modifications are an essential part of IEPs and of particular importance to general educators. Students learn evidence-based practices along with accommodations and modifications for students with a variety of disabilities (both high- and low-incidence). Students are required to identify IEP accommodations and modifications for their particular future classroom that they could use with students with specific disabilities.

#### c. Effectively teach students who are limited English proficient.

Students enrolled in the CoEHPH's professional program must complete a variety of courses that specifically address a student who is LEP. Strategies are included in all literacy courses for each teacher education program, as well as: EDFO U483- Organization and Management of the Diverse Classroom, EDFO U485- Diversity, Management, and Assessment, EDSC U344: M/Sec Managing the Classroom Environment, and EDSC U433 ML/Sec Educational Assessment. All courses provide teacher candidates with the theoretical and practical aspects associated with modifying curricula, assessments, and environment to assist students who are LEP. Recently the Unit launched a new 3-credit course EDFO U342-Teaching Multilingual Learners to provide students with the tools to work with students and parents who identify as LEP.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

The College of Education's Bachelor of Science degree in Special Education specifically prepares candidates to meet the South Carolina

certification and highly qualified requirements for licensure in Learning Disabilities (PK-12). This Program is approved by the South Carolina State Department of Education and holds accreditation by the Council for Exceptional Children (CEC). The Special Education- Learning Disabilities program of study consists of 122 hours of coursework, comprised of 54 hours in professional education in the areas of learning disabilities (LD) and literacy. In addition to aligning its curriculum offerings with the CEC Content and LD Performance-based standards, the Special Education-Learning Disabilities Program allows teacher candidates to design and implement instruction in accordance with the state content standards and to demonstrate the professional dispositions defined by the South Carolina Department of Education Standards of conduct. The LD Program of study consists of four stages (semesters), systematically designed for Special Education teacher candidates to acquire, practice, and refine competencies in a developmental and recursive manner. The focus for each course is categorized into one of four groups: 1. content, 2. skills, 3. skill-theory, 4. complete immersion field experience. The content-based courses target corresponding CEC Standards to establish the candidates' knowledge in those areas (i.e., LD Characteristics [stage I], Assessment [stage II], Organization and Management of the Diverse Classroom [stage III], and Issues and Trends in Exceptionalities [stage IV]. The skills-based classes include field placements where candidates apply multiple CEC Standards that focus on teaching methods for individual content areas (i.e., LD Math and Literacy [stage I], Literacy [stage II], LD Reading and LD Language Disorders [stage III]). The skill-theory classes have candidates apply principles of behavioral and cognitive theory (i.e., LD Methods [stage I], and LD Curriculum [stage II]) and the two-field based courses require activities beyond the assignments completed in the method skill-based course practicums (stage III and stage IV). The overarching paradigm shaping all instruction in the LD Program is the principle that a teacher's actions are to be research-based. Student outcomes are measured by what the IDEA refers to as Responsiveness-to-Intervention (RtI) practices. This methodological approach ensures that candidates gain the knowledge and skills proven most likely to accomplish desired student-learning outcomes. Candidates in turn are held accountable for their teaching performances.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

To support RtI and MTSS (Multiple-Tier System of Support) practices, candidates in the Special Education-Learning Disabilities Program also receive specific training that prepares them for their future roles as member of individualized education program (IEP) teams. In the Program's first stage, candidates write four fictitious IEPs. During stage II, candidates complete an assessment report based upon formal testing that they conduct with an assigned student in the clinical setting. In the Program's practicum (stage III), candidates write IEPs for students with whom they teach and attend the IEP meetings. During the final stage, candidates are encouraged to lead an IEP meeting.

**c. Effectively teach students who are limited English proficient.**

To support RtI and MTSS practices, the Special Education-Learning Disabilities Program provides candidates with continuous interactive experiences with school children in multiple settings, including schools with high poverty communities and student populations from multiple cultural and linguistic backgrounds. In each of their pre-student teaching placements, candidates document in quantifiable terms students' academic gains to evaluate how well their RtI practices are appropriately designed to meet the settings' and students' unique needs. This assessment model uses data-driven evidence to assess the impact on student learning. In addition to working with children who have limited English proficiency in their clinical settings, candidates complete a variety of projects in the Program's Language Disorder class devoted to addressing the needs of learners who are ELL. Here, students complete the IRIS (IDEA and Research for Inclusive Settings) modules, including its case study and response questions. Candidates also develop lesson plans for demonstrating their ability to select, adapt and use instructional strategies and materials that address the language deficiencies of a learner who is ELL.

## Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

On an annual basis CoEHPH faculty members in each program: Elementary, Early Childhood, Special Education - Learning Disabilities, Special Education - Visual Impairment, Middle Level/Secondary, and Physical Education compile program candidates' performance data into a report that is submitted to the University Assessment Committee. These documents present a summary and analysis of how candidates' Praxis II test data, program specific assessment data, and Teacher Work Sample outcomes indicate program alignment with the Unit's goals. Narratives within the reports highlight changes to curricula and pedagogy based on data trends. These reports are evaluated by the University Assessment Committee and shared across the Institution's academic community. Additionally, the CoEHPH submits an ADEPT 4.0 Report to the South Carolina State Department of Education on an annual basis. As a Unit, the CoEHPH holds a biannual Data Day in which the faculty and administration analyze unit and programmatic assessments to identify trends and implement data-driven changes to curricula. In October 2018, CAEP's Accreditation Council met and granted the then School of Education at USC Upstate accreditation at the initial-licensure level. Every April, the CoEHPH submits a CAEP Annual Report which highlights annual outcomes and impact measures, all of which underscore our drive towards continuous improvement. Additionally, the Unit is preparing for a CAEP site visit in Spring 2025. Part of this preparation includes submitting Specialized Professional Association (SPA) reports.
